Safety Information

About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Other Important Health and Safety Information The Xbox Instruction Manual contains important health and safety information that you should read and understand before using this software.

Avoid Damage to Your Television

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of gameplay may “burn in” to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner’s manual to determine if video games can be played safely on your set. If you are unable to find this information in the owner’s manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

Standard Combo Attack Button Sequences

Standard combos have varying effects. Depending on which Warrior executes the move, certain combos result in quick stuns, knockbacks, knockdowns or extreme knockdowns (send the victim flying into crowds). The less health your opponent has, the greater the hit effectiveness will be.

Combos started with a light attack:

- X A (stun or knockdown)
- X X X (stun or knockback)
- X X A (knockback or knockdown)

Combos started with a heavy attack:

- A A (heavier damage)
- A X (knockback or knockdown)

Power Move Combos

Each Warrior has 4 Power Move Combos; 2 for normal fighting and 2 for Rage Mode. The Rage Combos end in a devastating blow. To initiate these combos from a grab or a mount, press A + X. When the timing is right, press A two or three times to reign down the blows.

Getting Busted and Cuffing Characters

In some missions, the cops will try to bust you (and your Warriors) via cuffing. If a fellow Warrior is busted, walk over to them and press Y to initiate the mini-game. The player will then need to alternate pulling L and R in order to break the cuffs. This is displayed by an on-screen meter that will fill up based on the player's progress. If the player has cuff keys simply press Y to uncuff a fellow Warrior. If the player is busted, then other Warriors will come to their aid. The player may also find handcuffs on fallen cops. To use the handcuffs on an enemy the player must mount a character and pull R.

THE STORY

The Warriors

A battle on the streets of New York City looms. The armies of the night number 60,000 strong, and tonight they're all after The Warriors - a gang wrongly accused of killing a rival leader.

The Warriors must now make their way from one end of New York to their turf on the other side of the city.

THE WARRIORS

CONEY ISLAND, BROOKLYN

Reigning over their home turf of Coney Island in Brooklyn, led by Cleon, The Warriors have built a reputation as one of the toughest gangs in New York City. The Warriors' strength comes from the fact that each member brings their own unique toughness and skills to the gang. When brought together as a whole, The Warriors are able to make it through the perils of New York City gang warfare.

Cleon

As Warlord, Cleon is the leader of the Warriors. He is the foundation of this gang.

Swan

The Warchief; second in command. A man of few words who thrives on action. A loner willing to step up when it counts.

Rembrandt

The youngest of the gang. A writer that gets up wherever he can. A little soft around the edges, but still able to maneuver around any obstacle.

Snow

A real heavy soldier. Disciplined, independent and reserved. He can rumble with the best of them.

Ajax

The Muscle; cocky, loud and always up for a rumble. A loner who looks out for himself.

Vermin

A pretty heavy brawler. Pessimistic but loyal. A reliable ally who won't disappoint.

Fox

The Memory Man; street smart and quick witted. A perfect scout.

Cochise

A real live soldier. Looking for a good time and all the action he can handle.

Cowboy

A voice of reason. Goes along with the group, always wearing a Stetson.

Mugging

Grab your victim by pressing **B** and to initiate mugging, press **Y**. Once initiated, two status bars will appear: the player's mugging progress (top bar) and the victim's struggle progress (bottom bar). In order to complete the mugging, the player's bar must be filled before the victim's. By rotating the left thumbstick the player must find and hold the vibration to complete the mugging process.

Breaking and Entering

Some buildings can be entered by either smashing the windows or if gated, the player can pick the locks. To initiate the lock-picking process, simply press **Y** and three sets of "tumblers" that spin from largest to smallest will appear. When the 1st tumbler is in the red field, press **A**. Repeat this process three times and the lock will be picked. If the tumblers are aligned in the darker red area the alarm will not go off. Once inside, smash out display cases and grab the items by pressing the action button **Y** for cash bonuses.

Stealing Car Radios

The player can steal car radios, which are visible through the windows of parked cars. To steal a car radio, break the window then press **Y** to begin unscrewing the screws of the car radio. To achieve this action, simply rotate the left thumbstick in a counter-clockwise motion and once all four screws are removed the radio will be acquired.

Hide Areas

The player can hide in certain areas. These areas will be distinguishable by a very dark patch of ground and dim lighting. Once inside a Hide Area, the radar will tint blue and the character will automatically go into a crouched position indicating that they are now in stealth mode.

Stealth Maneuvers

Once the player is hidden and in stealth mode, approach the enemy then pull and hold the **R** to manually lock-on to the target. The character will raise their hand when in range to perform a stealth attack. Press **X** or **A** to take down the enemy silently.

Weapons and Lures

Almost any object can be turned into a melee or projectile weapon. Some melee weapons include baseball bats, pool cues, table legs, machetes and knives. Some projectile weapons include TVs, chairs, bottles, bricks and Molotov cocktails.

Projectile weapons are aimed automatically. All projectile only weapons can be used to cause distractions. By throwing an object into a wall or another object, the player can cause police and enemies to investigate if they are within earshot of the sound. Pull and hold **R** to aim manually for more accurate throws.

Money, Items, Dealers

Money is acquired by mugging, beating down enemy gang members as well as pedestrians and stealing certain valuables from stores and cars. Money can be used to purchase items from dealers such as Flash, spray paint, and knives.

Health and Reviving

If the player is low on health, utilize Flash to revive health by pressing right on the **directional pad**. Flash can be purchased from dealers, found in stores or picked up as a power-up. If a fellow Warrior is down, stand next to him and push left on the **directional pad** to revive. If the player is knocked out, a conscious Warrior will come to the player's aid and revive their character.

Note: This will only work if the player has Flash in their inventory.

Tagging

In some missions tags can be dropped in areas where indicated by an icon. In most areas you can snuff over a rival gang's burner that won't necessarily have an icon attached to it. Spray paint can be bought from street dealers. Paint power-ups can also be found in some levels or on some fallen enemy gang members as well as hardware stores. Press **Y** to initiate the tagging process. Trace the shape that appears on the screen by moving the **left thumbstick** along the path.

GAME MODES

Story Mode

In Story Mode, follow The Warriors from the early beginnings and through their fight against some of the toughest New York City gangs.

Rumble Mode

Rumble Mode is a multi-player mode comprised of many mini-games in arena-style settings. The player will be able to unlock different arenas based on their progress throughout the game. The player can also unlock different character models to use in a "Create a Gang" feature that is available within Rumble Mode. Rumble Mode can be single-player, co-operative play, or versus match between two players. There are numerous game modes and environments.

Two-Player Game

The Warriors allows for two players to play through the entire story mode co-operatively. To initiate, press **START** on a second controller inserted into any available controller port.

GAMEPLAY TIPS

Completing bonus missions around The Warriors turf will unlock items and abilities that will help the player throughout the Story Mode.

When being pursued by the police, the player should try to hop fences, cut corners and move to higher ground as the police are much less capable than The Warriors at traversing the urban landscape. Using Hide Areas will also provide safety from the police.

If the player is mugging someone and another pedestrian decides to call the police, the player can issue the **WRECK 'EM ALL** command and The Warriors will try to stop the pedestrian from alerting the police.

When the player manually locks onto an enemy by pulling **R** and issues the **WRECK 'EM ALL** command, The Warriors will move to attack the enemy that is being targeted.

Weapons are much more effective than fists when trying to break through tough objects like doors or cabinets.

Every Warrior has strengths and weaknesses. For example, some are better at mugging where others may be better at lock-picking. When getting cash, try to choose activities that are suited to the Warrior that is the acting Warchief for a given level. To check a Warrior's stats refer to the **STATS** section on the pause menu.

When being pursued by police, issue the **SCATTER** command. This will cause The Warriors to seek out Hide Areas and areas which are safe from the police.

When entering a store issue the **MAYHEM** command to have The Warriors clear out the valuable items from the store.

Don't leave The Warriors too far away or they will not be able to uncuff or revive the player. If the player is too far away to issue a command then they are unable to be helped by a fellow Warrior.

GAMEPLAY TIPS

Use rooftops whenever possible. Enemies and police will have a much harder time locating the player if the player is on a rooftop.

Sometimes the trunk of a car can contain a useful item or power-up.

As the player decreases an enemy's health, the enemy will become weaker making them a much easier opponent.

Certain moves like wall-smashes, mounts and power moves, require extra endurance to be performed.

Keep a close watch on debris around the city - many items will break into smaller, more deadly weapons.

Complete Story Mode to unlock Rumble Mode characters and levels.

Remember to look out for those down on their luck, throw them a dime every once in a while - they may help you in return.

When down, quickly press any button to stand up faster.

When timed right, you can stand up with a counterattack by pressing any attack button.

Pull the **L** at any time to release your target.

Pull and hold **L** and run to make a quick break from any fight.

Quickly press **B** to break free from a grapple.

Repeatedly pull **B** to reverse a grapple.

When sprinting, hit **X** to unleash a cross body attack or **A** to charge.

THE "SOFTWARE" INCLUDES ALL SOFTWARE INCLUDED WITH THIS AGREEMENT, THE ACCOMPANYING MANUAL, (S), PACKAGING AND OTHER WRITTEN, ELECTRONIC OR ONLINE MATERIALS OR DOCUMENTATION, AND ANY AND ALL COPIES OF SUCH SOFTWARE AND ITS MATERIALS. BY OPENING THE SOFTWARE, INSTALLING, AND/OR USING THE SOFTWARE AND ANY OTHER MATERIALS INCLUDED WITH THE SOFTWARE, YOU HEREBY ACCEPT THE TERMS OF THIS LICENSE WITH ROCKSTAR GAMES, INC. ("LICENSOR").

LICENSE. Subject to this Agreement and its terms and conditions, LICENSOR hereby grants you the non-exclusive, non-transferable, limited right and license to use one copy of the Software for your personal use on a single console. The Software is being licensed to you and you hereby acknowledge that no title or ownership in the Software is being transferred or assigned and this Agreement should not be construed as a sale of any rights in the Software. All rights not specifically granted under this Agreement are reserved by LICENSOR and, as applicable, its licensors.

OWNERSHIP. LICENSOR retains all right, title and interest to this Software, including, but not limited to, all copyrights, trademarks, trade secrets, trade names, proprietary rights, patents, titles, computer codes, audiovisual effects, themes, characters, character names, stories, dialog, settings, artwork, sounds effects, musical works, and moral rights. The Software is protected by United States copyright law and applicable copyright laws and treaties throughout the world. The Software may not be copied, reproduced or distributed in any manner or medium, in whole or in part without prior written consent from LICENSOR. Any persons copying, reproducing or distributing all or any portion of the Software in any manner or medium, will be willfully violating the copyright laws and may be subject to civil and criminal penalties. Be advised that copyright violations are subject to penalties of up to \$100,000 per violation. The Software contains certain licensed materials and LICENSOR's licensors may protect their rights in the event of any violation of this Agreement.

LICENSE CONDITIONS

You agree not to:

- (a) Commercially exploit the Software;
- (b) Distribute, lease, license, sell, rent or otherwise transfer or assign this Software, or any copies of this Software, without the express prior written consent of LICENSOR;
- (c) Make copies of the Software or any part thereof;
- (d) Except as otherwise specifically provided by the Software or this Agreement, use or install the Software (or permit others to do same) on a network, for on-line use, or on more than one console at the same time;
- (e) Copy the Software onto a hard drive or other storage device and must run the Software from the included CD-ROM (although the Software may automatically copy a portion of itself onto your console during installation in order to run more efficiently);
- (f) Use or copy the Software at a computer gaming center or any other location-based site; provided, that LICENSOR may offer you a separate site license agreement to make the Software available for commercial use;
- (g) Reverse engineer, decompile, disassemble or otherwise modify the Software, in whole or in part;
- (h) Remove or modify any proprietary notices or labels contained on or within the Software; and
- (i) Transport, export or re-export (directly or indirectly) into any country forbidden to receive such Software by any U.S. export laws or accompanying regulations or otherwise violate such laws or regulations, that may be amended from time to time.

LIMITED WARRANTY. LICENSOR warrants to you (if you are the initial and original purchaser of the Software) that the original storage medium holding the Software is free from defects in material and workmanship under normal use and service for 90 days from the date of purchase. If for any reason you find a defect in the storage medium during the warranty period, LICENSOR agrees to replace, free of charge, any Software discovered to be defective within the warranty period as long as the Software is currently being manufactured by LICENSOR. If the Software is no longer available, LICENSOR retains the right to substitute a similar program of equal or greater value. This warranty is limited to the storage medium containing the Software as originally provided by LICENSOR and is not applicable to normal wear and tear. WARRANTY

Except as set forth above, this warranty is in lieu of all other warranties, whether oral or written, express or implied, including any other warranty of merchantability, fitness for a particular purpose or non-infringement, and no other representations or warranties of any kind shall be binding on LICENSOR.

The Contractor/Manufacturer is the LICENSOR at the location listed below.

EQUITABLE REMEDIES: You hereby agree that if the terms of this Agreement are not specifically enforced, LICENSOR will be irreparably damaged, and therefore you agree that LICENSOR shall be entitled, without bond, other security, proof of damages, to appropriate equitable remedies with respect any of this Agreement, in addition to any other available remedies.

INDEMNITY: You agree to indemnify, defend and hold LICENSOR, its partners, licensors, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Software pursuant to the terms of the Agreement.

MISCELLANEOUS: This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under New York law as such law is applied to agreements between New York residents entered into and to be performed within New York, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in New York, New York.
